

# BULK WINE TRACEABILITY

## ENSURING SUPPLY CHAIN HUMAN RIGHTS DUE DILIGENCE AND SUSTAINABILITY

The **heart** behind the **WIETA Fair Labour Practice Seal** is to provide ethical product assurance that wine within a specific vintage year has been **fully socially traced** to ensure that all the suppliers, the production cellar and bottling facilities have undertaken a **3rd Party WIETA Audit** by a recognised independent ISO compliant Certification and Audit Body, with auditors registered with the Association for Professional Social Compliance Auditors (APSCA) and have had all corrective actions signed off by the respective Certification Body

**Social Traceability** is supported by an extensive verification process, undertaken by The South African Information System (SAWIS), involving an independent inspection, registration and approval as an **authentic Wine of Origin**.

Supply Chain Traceability includes all **Wine Producers, Grape Growers, Cellars, Traders and Bottling Facilities**.

### The benefits of Social Traceability:

- Total **visibility of Human Rights Due Diligence** throughout your Wine Supply Chain
- **More Transparency**, allowing the supplier to share information on compliance status at the request of buyers
- **Commitment to Improvement**. Suppliers must demonstrate a commitment to improve the conditions of work, sustained fair treatment of workers and demonstration of their human rights due diligence
- **Managing and Mitigating salient risks** in your supply chain

Who can Apply for the WIETA Fair Labour Practice Seal?

Any Importer or Buyer wishing to undertake the Traceability Exercise, or use the Fair Labour Practice Seal on their packaging. Contact the South African based Production Site.

Alternatively you can contact Louhan Nel (Advisor: Ethical Support & Quality Assurance) 021 880 0580 | [louhan@wieta.org.za](mailto:louhan@wieta.org.za)
